Morning Pat..

See below

As per our discussion last night.

TPS has advised that they will have UC members in the crowd and have asked for our members not to be crowd infiltration, but to attend at the different rallying points around the GTA and to advise the TPS CP of how many, mood etc so that they are aware.

I know you said we could ask our partner agencies to do this but I am leery about doing that as they have their own business to deal with and we don't want to be perceived as directing them.

TPS has done many protests at QP and works well with the detachment there from what I gather. I believe Jimmy and I can support them with all that we have set up already without the OPP crowd infiltration teams as they have that aspect covered already.

As this is a fluid and evolving event you can Let CCT know that we have shifted in our response to support TPS wit the Toronto Convoy.

I have spoken with both Catherine and Trish this am.

Trish has the Sit rep and Catherine will be working diligently on the other document with Adrian and Mike Hiltz.

Donk did an amazing job yesterday with [REDACTED] filling in the gaps and she has a few things she needs to get ironed out today with Mike to provide this document. Keep in mind that if we (and I mean the OPP) had of known when we started this 12 days ago then the document Catherine is now working on would of been building since then. We all were giving our Intel to Ottawa Police as it was their responsibility.

So the document will be done later today but we need to remember that we are playing catch up now.

I think that's it for now, Catherine, Trish and Mike were sent to bed last night at 0900 and are already rolling this am

This will be a Quality Friday!

Good afternoon everyone,

I have just spoken with the Inspector Katherine Stephenson at TPS Intel.

Insp Stephenson has asked if we could have our crowd insertion people deployed to the staging areas where the groups will be forming up. This will provide real time intel as to numbers, crowd sentiment etc., to both the EOC and the Toronto MICC. And be far more beneficial to the overall information being gathered. As already discussed with Will and Insp. Walker, the need for OPP to be on the ground at QP would be redundant.

If this is satisfactory, the meeting points can be sent to Will, Kyle and their teams for assignment. I can look after that with the assistance of Catherine Palermo and Ian Chen.

Also, for everyone's information, the IOC (Mini MICC) will be operational 24/7 starting on Friday morning at 0800 hrs.

D/S/Sgt Jason Bartlett will be the OIC for this. I've been advised that Superintendent Warren Wilson maybe the incident commander at the MICC – but this is not confirmed.

Scott.
